

Cork Pops Legacy Wine Opener

This innovative new gadget makes opening a bottle of your favourite wine, quick, convenient, painless and, perhaps the most important thing of all, fun.

All you do is simply insert the needle into the cork, making sure that it goes straight down and right through the cork, press once and the cork pops out!

You can go from foil wrapped to open in seconds as The Cork Pops Legacy offers an enhanced foil wrap removal system alongside its innovative cork ejector.

As truly visionary as the original, but enhanced with new technology, The Cork Pops Legacy is a brilliant update of the original Cork Pops Wine Opener.

This stylised piece is designed to fit all standard wine bottles including the newer models with the flanged lip.

With its rubberised, black, streamlined, easy grip finish it would look fabulous in anyone's kitchen.

In fact, it looks so good, who would want to hide it in a drawer?

Toss out your old wrist wrangler and update your tool drawer with this wonderfully handy little cork extractor.
