

Zzysh Wine Preserver

Argon Gas Wine Preserver by zzysh® – Argon Gas Wine Saver

Highly effective wine preserver that keeps your wine from oxidizing and preserves its natural flavour and quality for weeks.

The 100% food-grade argon gas replaces the air in an opened bottle. Each cartridge can be used for up to eight applications.

Seal the wine bottle with the wine stopper, attach the hand piece and press down for 3-5 seconds.

A smart and compact Swiss design that allows you to enjoy wine by the glass while protecting the rest from oxidation.

A perfect gift for wine lovers.

Further information

ZZYSH® ARGON GAS WINE PRESERVER. ENJOY A GLASS, AGAIN AND AGAIN.

ZZYSH® WINE PRESERVER – SWISS INNOVATION.

Have you ever wanted to be free to enjoy a glass of wine without worrying about the rest of the bottle? Or be free to open all the wines that you or your guests feel like drinking? Now you can! Enjoy as much as you like of your favorite wine while keeping the rest of the bottle's natural taste for weeks after it is opened.

BETTER THAN A VACUUM PUMP.

Unlike vacuum pumps, wine pouring systems or classic wine stoppers, zzysh® is a revolutionary wine preservation system that is designed to protect from oxidation, working with all kinds of wines and most types of wine bottles. It relies on the tried-and-true argon gas preservation methods that winemakers have used for years within industrial wine preservation. Zzysh® has adapted such methods and created a patented wine preservation system that satisfies wine experts' expectations all over the world. Considering its ease of use, it also makes a great wine accessory for private households.
