

ECO TRELLIS®
HORTICULTURAL SOLUTIONS

A REVOLUTIONARY NEW TRELLISING SYSTEM

ECO TRELLIS® offers a complete vineyard trellising solution using posts, clips and strainers as relevant to site location. It's the perfect system for both new vineyard developments and the replacement of damaged wooden posts.

THE ECO TRELLIS® ADVANTAGE

- Meticulous research and testing, followed by a comprehensive product-development process in the vineyard.
- Environmentally friendly
- Made from high-strength galvanised carbon steel coated with a thick layer of zinc, ensuring high durability against corrosion.
- Cost-competitive
- Fully recyclable
- Simple installation with the flexibility of variable clip height; round profiles allowing easy post orientation; and manual attachment of wire clips.
- Lightweight and safe
- A choice of three different strainer systems – conventional, box and tie-back.
- Guarantee against any material or manufacturing fault.
