WINETOTE™

Hoover Ferguson's WineTote is the perfect solution for responsible wine handling. Manufactured in Hoover Ferguson's ISO 9001:2008 facility, the WineTote is designed specifically to meet the demands of the wine and beverage industry. From distilling and blending to fermentation and storage, Hoover Ferguson's WineTote is the most versatile and reliable container. The WineTote also allows for easy transportation of wine, as well as juice and alcohol.

THE ANATOMY OF A HOOVER FERGUSON WINETOTE:

- Standard sizes include 126, 350, 550, and 793 gallon
- 10-gauge 304 stainless steel with 2B finish
- Patented one-piece sloped bottom for drainage
- Interior and exterior welds are strip cleaned
- One-piece welded body
- Discharge assembly: 2" sanitary 90-degree elbow with tri-clamp
- Three-way fork lift entry
- Stackable
- 22" top manway
- 2" tri-clamp port on top

WINETOTE CUSTOMIZATION IS AVAILABLE:

Hoover Ferguson understands that each wine maker and beverage company has different needs. WineTote's can be custom-designed by size and with a range of optional accessories to meet those unique needs.
