

Maturation Cylinders

Volume	Diametre	Height	Tare (dry) weight	Gross weight
Rocket 1,000 litres 265 gal	80cm 315"	230cm 910"	24kg 53lb	1,024kg 2,258lb
Soldier 600 litres 158 gal	80cm 315"	150cm 591"	19kg 42lb	619kg 1,365lb
Barrel 300 litres 80 gal	60cm 236"	120cm 471"	15kg 33lb	315kg 683lb
Bottle 100 litres 26 gal	40cm 16"	100cm 39"	12.5kg 28lb	112.5kg 280lb

Our **Maturation Cylinders** are the best cost effective solution for the maturation of wine. Providing the same maturation capabilities as Next Generation Barrels, they allow winemakers to produce top quality wines "without the frills".

Our mini sized **100 litres/1 hl/26.5gal Bottles** are designed for ultra small lot wine maturation, break down volumes and trials. These **Bottles** perfectly recreate the oxygen permeability of the larger maturation vessels. Ideal for the small lot winemaker, those awkward small volume "left over" batches and oak trials. Only requiring small volumes of wine, which in turn reduces cost and handling, the 100 litres/1 hl/26.5gal Bottles allow you to have more treatments. By introducing the oxygen element, winemakers can now see what the real impact of a test oak will be.

Capacities

Rocket (1,000 litres/10 hl/265 gal) - available in low and medium permeability.

Soldier (600 litres/6 hl/160 gal) -available in low and medium permeability.

Barrel (300 litres/3 hl/80 gal) - available in low and medium permeability.

Bottle (100 litres/1 hl/26 gal) - available in low, medium and high permeability.
