

YOUR 2022 WINETECH PREVIEW

# WINETECH

ADELAIDE CONVENTION CENTRE  
27 – 29 JUNE, 2022

The wait is over. Australia's #1 Wine Industry event is just around the corner.

There's an event, then there's a personal touch.

[www.winetech.com.au](http://www.winetech.com.au)

## Time to future plan...

We could have sent an email but wanted it more personal by sending you this invitation for yourself and team.

This unrivalled event for the wine industry and community is planned to reconnect and be the single source of knowledge and innovation you're looking for in these times of change and opportunity.

It's the one event designed to deliver insight and unite the industry with key invested suppliers all converging on Adelaide to showcase, network and share.

This year's event will be the most significant in-person event of 2022 and for many the first time in a number of years to meet face to face, we can't wait to see you.

From June 27-29, 2022 at The Adelaide Convention Centre, we will present your favourite suppliers as well as many new ones all under one roof making your visit time efficient allowing you to see it all in days rather than months!

No matter if you're looking for tools to enhance your productivity, increase operational and workflow efficiency, or seeking creative and cost-effective solutions to overcome your challenges, WINETECH will deliver a diverse range of suppliers committed to your success and ready to make your vision a reality.

See you there!

# The challenge of change...

In today's current competitive world, it is clear that customer behaviour has changed – how they buy, their declining loyalty factor, and sellers squeezed profit margins are all evident.

Expectations and demands today are different to those of the past. Research and insight studies are showing strategies and tactics which were successfully used in the past are less likely to work in the future.

The new emerging marketplace forces companies to be far more innovative, creative and disciplined in determining what the offer is, and the strategy and reasons behind it.

This all represents opportunity and plenty of room for growth, but you need to be prepared to change and move with the 'new normal'.

And you'll need to do it with an abundance of energy and fresh thinking overlaid with practical safety measures in place.

Winners in the current and new marketplace are bold. They dare to be different and understand they must continue to seek a revolution in what they are doing.

## Event information

Monday 27 June | 10am – 5pm,  
(5pm – 8pm: Networking ticketed event)

Tuesday 28 June | 10am – 6pm

Wednesday 9 June | 10am – 3pm
